MEMORANDUM FOR: Director of Training

SUBJECT : Intelligence School Weekly Report #29
18 July through 23 July 1958

1. Plans for the long-term schedule have been discussed during the past week with R/TR, AC/PPS, and DDTR. The lack of classrooms of sufficient size will require reduced enrollments (about 40 maximum) in the Intelligence Orientation for three runnings: October, November, and January. If demand is high, an additional course for 40 can be presented in December. Intelligence Exhibits will be presented in October and in January. Careful scheduling of the seminars will permit both IO and JOT classes to divide into smaller groups as required, without exceeding the space available.

25X1

2. [] was briefed on the Intelligence School for one hour on Wednesday, 23 July.

3. Two extended meetings to consider evaluation aspects of the JOT program have been held during the past week. Although they lasted one hour and three hours respectively, no definite conclusions or definite issues requiring decision have so far emerged.

25X1

4. [] will be attending the USIA "American Civilization Seminar" during the weeks of 28 July and 4 August. He will be on active duty at the Pentagon the weeks of 11 and 18 August.
